1. The county understands the need to regularly backup the CAMA server to tape or some other suitable media, preferably off site. This is to ensure that the CAMA system can be restored in case of catastrophic hardware failure.

I understand

23 (100%)

I require additional information

0 (0%)

Total: 23

2. The county understands that the CAMA system cannot be recreated with the data stored at the DOR or from DataMart. This is to ensure the county continues to independently safeguard the CAMA data from loss.

I understand

23 (100%)

I require additional information

0 (0%)

Total: 23

3. Several counties have identified the need for backup software for use with the RD1000 Tape Backup unit that was installed in the new CAMA servers. Does your county require this software?

Yes, please send the backup software.

9 (39%)

No

14 (61%)

Total: 23

4. The State is willing to do a one time purchase for two (2) additional backup tapes for the RD1000 backup tape unit. Note, the DOR considers backup tapes a consumable item that should be replenished by the county after this purchase. Would your county like to receive these two additional tapes?

Yes, please send the additional tapes.

9 (39%)

No

14 (61%)

Total: 23
