

> Public Information Requests

Public Information Requests

A group of Assessors have gotten together to propose a link on the Department website for Public Information which would be extracted from the CAMA system. The information will be from R & M Accounts and Active Records only. Traditionally, and in accordance with the agency's rules, CAMA requests are only released to the requestor once a survey process is approved by the Assessors. The data associated with this release would be covered by this survey for the year and anyone who fills out some basic information can download the data for free. Attached is the query developed by Brenda Arnold, a snapshot of the information that would be extracted one time by the Department after the assessment cycle is completed. If approved the Department will post the 2011 records.
