Electronic Transfer of State Assessed	Stacey Lustig	Dave Chapman	Good to go with the understanding that this needs to be automated with the next build.	11/12/2004 3:42 PM
Electronic Transfer of State Assessed	Dave Chapman	Kevin OConnell	David - our plan on this is to have this be a more manual process to begin with, requiring 23 seperate pushes from the State. We will look into enhancing this in a future build. The concern here is handling all errors appropriately.	10/4/2004 12:18 PM
Electronic Transfer of State Assessed	Stacey Lustig	Dave Chapman	How will this data be pushed out to the County? Will this be by individual county or will the system divide a larger file into county downloads and then push the information out? DOR would prefer if the system would do one push out versus twenty three pushouts for the two data files. -dc	10/4/2004 9:59 AM
