Survey Name: U.S. Forest Service Data Request

Survey Description: Description: Ownership parcel data to support wildland fire and risk assessment models (RAVAR). Request: The wildland fire support group which is managed by the U.S. Forest Service is requesting valuation data to be linked to the parcels each county provided to support the RAVAR (Rapid Assessment of Values At Risk) system. The attributes being requested will assist the U.S. Forest Service in defining values at risk and where they're located in relation to a wildland fire event. The purpose of this survey is to determine if your county approves the Department of Revenue to extract and provide attribute information from Statewide DataMart for the Forest Services' use in RAVAR. If the county agrees, the data will be extracted from the system in Cheyenne and sent electronically to the Forest Service in Missoula Montana. If you require additional information please contact Bob Johnson with Premier Data Services at (303) 908-6003 or Kevin Hyde with the Rocky Mountain Region Forestry Sciences Lab at (406) 329-2137.

FYI: They had already contacted our office and worked with our GIS coordinator to get GIS info. This was completed a couple of weeks ago.

1 (20%)

They can have ownership information, but I don't feel it necessary to have the values at hand.

1 (20%)

sorry the FDGC (BLM) already requested this data directly from us so I got confused and thought this was a duplication

1 (20%)

1)After talking w/Bob Johnson I found that hardly any other states or counties provide this data.2) This is not the only alternative, they can and will ask affected counties 'as needed' for forest fires.Not every year. 3)Premier Data Service (Requesting Party)is not the Forest Service and the data may not be 'sold' but it may be given away by the freedom of information act.

1 (20%)

WE DO NOT WANT THEM TO HAVE VALUES, BUT THEY MAY HAVE NAME & ADDRESS
