Survey Name: Printing Declarations

Survey Description: Currently, RealWare prints declarations by the year and book value. Several counties have indicated that this should actually be printing by the year and taxpayer's reported value. CCI has indicated that this type of fix may be able to be completed for the 4.16 release of RealWare if we can get them an answer as soon as possible, hence the shortened response time. This vote will close by Thursday, September 11, 2008.

Time Created: 9/8/2008 10:28 AM

1. How would you prefer the PP/OG declarations to print?

Tax Year and Book Value

0 (0%)

Tax Year and Reported Value

19 (100%)

 Total: 19

2. If approved, is there anything else the DOR needs to consider before we move forward with this request?

David, Some counties may want both. but legally I think we must have reported year and value at least.

1 (25%)

Sublette County would like to be able to enter both the reported value and the book value when it is used in place of the reported value. We only do this when the reported value is not close to the industry standard for similar equipment. The declaration needs to clearly show this.

1 (25%)

We need to have the ability to put the taxed amount on the declaration also if we are using something other than what they reported.

1 (25%)

I would like to have book value, too, but it would have to be last year's book value as we don't have the PP Manual with new prices prior to sending renditions.

1 (25%)

 Total: 4
